

# CONCORD VALUE-BASED CARE

## What We Do

Automate Provider incentive Payments | Close Care Gaps for At-Risk Patients

## Opportunities in the Value-Based Care Landscape

Value-Based Care will continue to grow in importance within the healthcare industry. The hard part will be supporting the arrangements between payers and providers with transparent and easily accessible data, automated processes, and aligned incentive tracking. We help you build the technology and process frameworks to make your partnerships run flawlessly and reduce costs for all stakeholders.

### Automate Provider Incentive Payments

Managing value-based arrangements and coordinating data collection across multiple payor functions is challenging.

We turn cumbersome, manual processes into a business advantage by developing a data ingestion service and convenient UI to access information. Gain transparency in the flow of money and contain costs by attributing member to provider.

### Close Care Gaps for At-Risk Patients

Addressing care gaps is not easy, but it will enhance patient health, reduce costs, and improve Star ratings.

We develop data-sharing technology and processes to allow streamlined collaboration between payers and providers. Get a handle on existing care gaps and work collaboratively and efficiently to eliminate them.
